

Oakstone Recreational

Scope: New Volleyball Facility, Restaurant & Bar

Location: Cottage Grove, Wisconsin

Owner: Josh & Jenn Vinluan

Oakstone Recreational is a 14,000-square-foot pre-engineered metal building located in the Cottage Grove, Wisconsin industrial park. The project fast-track project took five months to construct during the summer of 2019 and allowed the owners to meet their Labor Day opening date in time for the fall volleyball season.

The project includes a 10,000-square-foot high bay building that houses two indoor volleyball courts, and a 4,000-square-foot restaurant, bar and kitchen that wraps around two sides of the volleyball facility. To meet the business park's architectural standards and to add interest to the building's exterior, horizontal textured insulated panels were installed. The infrastructure for two future outdoor volleyball courts and an outdoor bar were also included in the project.

This project was recognized by the Associated Builders and Contractors (ABC) of Wisconsin as a 2017 Silver Project of Distinction and by the Metallic Building Company as a 2019 Design-Build Contest Excellence Award winner.

“When we started working with Friede, they responded to what felt like major, potentially project-halting hurdles with a calm demeanor and a ‘we’ll figure it out’ attitude. If I got concerned about something, they were confident they could figure out a solution.”

— Josh Vinluan, Co-Owner, Oakstone Recreational
