

BSA Bitton Family Range

Scope: New Skeet and Trap Range

Location: Oxford, Wisconsin

Designer: Boy Scouts of America

In early May of 2015, the Three Fires Council of the Boy Scouts of America were presented with an unexpected opportunity and challenge. A donor came forward who wanted to see a shooting center developed for the use and benefit of the scouts who make up the Three Fires Council of St. Charles, Illinois. The challenge stipulated the center needed to be developed that spring for use during the summer programs, which would start only six weeks later. Camp Freeland Leslie had expanded its rifle range the spring before and had land available for the development of a new skeet and trap range.

Details and plans were developed over the next two weeks and construction on the range began the last week of May. Eighteen working days later, the new Bitton Family Skeet and Trap Range was completed and available for use by the first scouts who arrived on Saturday, June 19 and throughout the remainder of the summer.

This project was recognized by the Associated Builders and Contractors (ABC) of Wisconsin as a 2015 Gold Project of Distinction.
