

HuHot Mongolian Grill

Scope: New Restaurant

Location: Lake Delton, Wisconsin

Designer: Architectural Design Consultants, Inc.

HuHot Mongolian Grill is a new 5,200-square-foot restaurant in Lake Delton and is a stand alone building on a redevelopment site. The structure consists of a concrete foundation with wood framing and trusses. Exterior finishes include cultured stone, Trespa phenolic panels, and an Exterior Insulation and Finish System (EIFS) with EPDM and standing seam metal roofing systems. The interior build-out includes a full kitchen and dining area, with curved walls and soffits, murals, wall and floor tiles, solid surfaces, wood trim, and casework.

The 6' diameter, 1,900 pound circular grill is the centerpiece of the new, interactive dining location. Customers build their own unlimited stir-fry meals and the grill is where 95% of the cooking happens.

This project was recognized by the Associated Builders and Contractors (ABC) of Wisconsin as a 2017 Silver Project of Distinction.
