

## White Mound County Park

Scope: New Community Building

Location: Hillpoint, Wisconsin

Designer: Galbraith Carnahan Architects

This conventionally-framed building inside White Mound County Park serves as the facility's new community building. The new 3,000-square-foot structure replaces a former outdoor shelter and contains a 720-square-foot community room that will be open year-round. The facility also includes office space for the parks department and camper registration, a kitchen, and an outdoor picnic area.

The building's exterior is covered with corten steel siding that provides a rustic feel and weathers well. Extensive energy-efficient foam insulation in the walls and ceilings keeps the facility warm in the winter and cool in the summer. The building is ADA-compliant, and includes three bathrooms and a shower room. An asphalt pathway on the southeast side of the building leads toward the lake and beach.

This project was recognized by the Associated Builders and Contractors (ABC) of Wisconsin as a 2017 Gold Project of Distinction and received a 2019 Design Award by The Wisconsin Park & Recreation Association.

"Before working with Friede & Associates, all we had was an outdoor shelter. Now we can make this more of a year-round facility that people can enjoy."

— Dave Riek, Chairman, Sauk County Parks Oversight Committee
